-
1. For owner and annuitant; some restrictions may apply in some states. Call a representative for details.
 2. If you are purchasing an annuity to fund a retirement plan, such as an IRA, that receives preferential tax treatment under the Internal Revenue Code, you should consider that an annuity does not provide any additional tax advantages to that already available through your retirement plan. However, an annuity does offer features and benefits in addition to providing tax deferral that other funding vehicles may not offer, including death benefit protection for your beneficiaries and annuity options which guarantee income for life. You should consult with your agent or financial advisor as to whether the overall benefits and costs of an annuity are appropriate considering your circumstances.
 3. In some states, reinvestments after a specified age, typically age 84 or 85, are limited to the One-Year Renewal Guarantee Period. Speak to your agent or financial advisor for details.
 4. The One-Year Renewal Guarantee Period is not available for purchase payments. It is only available to transfer amounts from a guarantee period whose surrender charge period has expired, or to transfer free withdrawal amounts.
 5. Withdrawals before age 59½ may be subject to a 10% IRS penalty tax.
 6. This Bonus is paid on all of your contract value when the total value reaches \$125,000 provided that the credited rate associated with each allocation to a Guarantee Period, after application of the Accumulation Bonus Rate, exceeds the contract's guaranteed minimum interest rate. Check with your agent or financial advisor for complete details.

All guarantees provided in the contract, including the minimum guaranteed interest rate, are provided by Security Benefit Life Insurance Company. Guarantees are subject to SBL's financial strength.

Rates may be changed at any time without notice, and the rates set forth herein may not be available at the time of purchase.
